

New Source Review newspaper advertisements for construction permit applications, September 4, 2008. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: September 16, September 17, or September 18, 2008. Public notices are generally published every two weeks. The previous publication of public notices was September 4, 2008.

### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Rogers Group, Inc –LaFollette Asphalt with a mailing address of P.O. Box 25250, Nashville, TN 37202-5250. They seek to obtain an air contaminant permits for modification of an Asphalt Plant (Division identification number: 07-0018-01/62125) located at 504 Towe String Road, Jacksboro, TN 37757. This existing operation consists of a mixer, asphalt cement storage, and crushed aggregate storage piles for making hot mix asphalt. A baghouse is used for pollution control. The requested modification is to increase fuel usage to 2.25 gallons per ton of asphalt. There would not be physical construction. There would be an increase in regulated air contaminants emitted by this source. Ms. O. Jacobsen is the assigned Division person.

For the Campbell County *Lafollette Press* -- published once on or before Thursday, September 18, 2008.

The applicant is Shaw Industries, Inc. with a mailing address of P.O. Drawer 2128 Mail Drop: RW-24, Dalton, GA 30722. They seek to obtain an air contaminant permit (Division identification number: 26-0042-06/61910) for modification of a Carpet Fabricating Operation located at 4130 Cowan Highway, Winchester, TN 37398. This existing operation consist a two (2) Mixing Tanks, one (1) Storage Silo, and associated equipment used in carpet material storage. Bag Filters are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

For the Franklin County *Herald-Chronicle* -- published once on or before Thursday, September 18, 2008.

The applicant is Tate and Lyle Ingredients Americas, Inc. with a mailing address of 2200 East Eldorado Street, Decatur, IL 62525. They seek to obtain an air contaminant permit (Division identification number: 53-0081-28/62319) for the modification of their alcohol production operation at 198 Blair Bend Drive, Loudon, Tennessee. The existing operation consists of fermenters with a CO2 scrubber for control of volatile organic compounds. This proposed modification would increase the allowable emissions of volatile organic compounds. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven Simpson is the assigned Division person.

For the Loudon County *News-Herald* -- published once on or before Thursday, September 18, 2008.

The applicant is Tyson Foods, Inc. with a mailing address of P.O. Box 669, TN 38261. They seek to obtain an air contaminant permit (Division identification number: 66-0112-05/62285) for modification of a frying operation located at 2800 East Tyson Drive, Union City, TN 38281. The requested modification is for increase of emissions on one of the five Stein TFII, 4023 Heated Fryers (no.3), with in line air scrubber used for pollution control. Regulated air contaminants would be emitted by this source. There would be no physical construction. Mr. Jim A. Attar is the assigned Division person.

For the Obion County *Union City Daily Messenger* -- published once on or before Thursday, September 18, 2008.

---

The applicant is Exide Technologies with a mailing address of 364 Exide Drive, Bristol, TN 37620. They seek to obtain an air contaminant permit, (Division identification number: 82-0256-13/62283) for the modification of the lead re-melting process at 364 Exide Drive, Bristol, Tennessee. The existing operation consists of lead re-melting furnaces. A wet collector is used for pollution control. The requested modification is for an increase in the allowable emissions of particulate matter. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven R. Simpson is the assigned Division person.

For the Sullivan County *Bristol Herald Courier* -- published once on or before Thursday, September 18, 2008.

---

The applicant is C-Wood Lumber Company, Inc. with a mailing address of P.O. Box 216, Collinwood, TN 38450. They seek to obtain an air contaminant permit (Division identification number: 91-0046-05/61369) for modification of a Woodworking Operation located at 624 W. Indian Creek Road, Collinwood, TN 38450. This existing operation consists of a Multi-Saw and associated equipment used to cut lumber. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. The proposed modification is to add a Rip Saw, Wood Grinder, and another Multi-Saw. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

For the Wayne County *News* -- published once on or before Thursday, September 18, 2008.
